

Fee Schedule

1 April 2017 (We are pleased to maintain fees at 2016 levels)

Fertility Assessment & Screening

Initial Consultation	£185
Initial Consultation including scan	£260
Follow up Consultation	£115
First Follow-Up Consultation following IVF/ICSI/FET*	No Charge
Embryology Review Consultation	£125
Pre-treatment investigations/screening (per couple)	£480
<small>(includes LH/FSH or AMH, Rubella immunity for female partner; HIV, Hep B & Hep C screening for both partners, and semen analysis)</small>	
Egg Sharer investigations/screening	£350
Individual hormone tests or rubella (per test)	£47
Anti-Mullerian Hormone test (AMH)	£95
Semen Analysis	£110
Viral Screening tests (per person) (includes HIV, Hep B & Hep C)	£125
Prolactin	£47
CMV	£47
Blood Group	£47
Chromosomal Analysis	£300
Cystic Fibrosis Screen (CF)	£250
Sperm DNA Fragmentation test (plus £100 courier fee)	£450
Sperm Aneuploidy Screen	£450

*If an IVF or FET cycle is unsuccessful, the first follow-up consultation is free of charge within four months of treatment

Treatments

PLEASE NOTE that, unless otherwise indicated, the fees for treatment do not include the cost of medication, storage of sperm/embryos or fees payable to the Human Fertilisation and Embryology Authority (HFEA).

**Time lapse technology is used for all cycles involving egg fertilisation (at the cost indicated), as is blastocyst culture where suitable.

IVF	£2900
<small>(includes as required all monitoring scans, injection instruction, egg collection, sperm preparation and insemination, use of electronic witnessing, embryo transfer using EmbryoGlue© where appropriate, pregnancy test and pregnancy scan and scan prints, or first follow-up consultation).</small>	
**Use of EmbryoScope Time Lapse technology (includes memory stick of time lapse images if wished)	£700
**Embryo culture to Blastocyst stage	£220
Intra-cytoplasmic Sperm Injection (ICSI) procedure (additional to IVF if required)	£1100

Mild IVF with ICSI £2900

(includes as required all monitoring scans, injection instruction, egg collection with ICSI as required, sperm preparation and insemination, use of electronic witnessing, embryo transfer using EmbryoGlue© where appropriate, pregnancy test and pregnancy scan and scan prints, or follow-up consultation)

Please note that medication costs for Mild IVF are considerably reduced – see 'Medication for Mild IVF' below. See also EmbryoScope and Blastocyst culture fees above

Frozen Embryo Transfer (FET) £1095

(includes as required monitoring scans, embryo thaw and culture (to blastocyst stage if indicated), use of electronic witnessing, embryo transfer, using EmbryoGlue© where appropriate, pregnancy test and pregnancy scan and scan prints, or first follow-up consultation)

Fertility Preservation. Egg Collection, Freezing and Storage £3175

(includes as required monitoring scans, injection instruction, egg collection with sedation, use of electronic witnessing, egg freezing and egg storage for up to 3 years)

Treatment using frozen/thawed eggs £2800

(includes as required all monitoring scans, injection instruction, egg thaw, sperm preparation and ICSI, use of electronic witnessing, use of EmbryoScope Time Lapse technology, embryo transfer using EmbryoGlue© where appropriate, pregnancy test and pregnancy scan and scan prints, or first follow-up consultation)

Intra-uterine Insemination (IUI) £710

(includes as required all monitoring scans, injection instruction, sperm preparation, insemination, use of electronic witnessing, pregnancy test and pregnancy scan and scan prints)

Ovulation Induction £410

(includes initial consultation and scans for first cycle)

Medication

Medication for Ovulation Induction £15 – £180

Medication for IUI (if required) £120 - £190

Medication for IVF or ICSI £500 - £1600

Medication for Mild IVF or Mild ICSI £200 - £400

Medication for FET (if required) £120 - £250

Freezing and Storage

Embryo Freezing and Storage for 3 years*** £675

Sperm Freezing and Storage for 3 years*** (per 3 samples) £800

3 yearly storage charge for sperm, eggs or embryos*** (applicable after first 3 yrs) £540

*** A refund of £180 will be made for any complete years of prepaid storage not required

Human Fertilisation and Embryology Authority (HFEA) Fees

Egg Collection, Egg/Embryo Recipient and FET (per treatment) £80

IUI using donated sperm (per cycle) £37.50

Donor Treatments

PLEASE NOTE that, unless otherwise indicated, the fees for treatment do not include the cost of medication, storage of sperm/embryos or fees payable to the Human Fertilisation and Embryology Authority (HFEA). ****Time lapse technology is used for all cycles involving egg fertilisation (at the cost indicated), as is blastocyst culture where suitable.**

IVF using donated eggs** £5055**

(includes as required donor matching, donor medication & injection instruction, monitoring scans, sperm preparation, fertilisation of eggs, use of electronic witnessing, , embryo transfer using EmbryoGlue where appropriate , pregnancy testing and pregnancy scan or first follow-up consultation. Recipient medication not included.)

****Use of EmbryoScope Time Lapse technology (includes memory stick of time lapse images if wished) £700**

****Embryo culture to Blastocyst stage £220**

ICSI Procedure (additional to IVF if required) £1100

IVF for Egg Sharer £700

(includes as required, all medication, injection instruction, monitoring scans, sperm preparation and insemination, embryo culture (to blastocyst stage if indicated), use of electronic witnessing, use of EmbryoScope Time Lapse technology*, embryo transfer using EmbryoGlue where appropriate, pregnancy testing and pregnancy scan and scan prints, or first follow-up consultation)

ICSI Procedure for Egg Sharer (additional to IVF if required) £1100

Treatment with Donated Embryos (Frozen Embryo Transfer) £2440

(includes, as required, donor matching, injection instruction, monitoring scans, embryo thaw and embryo culture (to blastocyst stage if indicated), use of electronic witnessing, embryo transfer using EmbryoGlue where appropriate, pregnancy testing and pregnancy scan and scan prints, or first follow-up consultation. Any medication not included.)

Donor Sperm £450 - £750

**** For known donors, recipients are responsible for the costs of donor consultations and screening

Male Factor Procedures

Andrology investigations £425

(includes two semen analyses, FSH, LH, Testosterone, Oestradiol & Prolactin)

Surgical Sperm Retrieval (including general anaesthetic) £2300

Freezing of Surgically Retrieved Sperm £695

(includes storage for 3 years***)

*** A refund of £180 will be made for any complete years of prepaid storage not required

Additional Charges

Anaesthetic Fees
