

# History of Hewitt Fertility

As we celebrate 40 years of IVF we recap on the journey of Hewitt Fertility from where it all began in 1989 to today

## Formation of IVF Unit

It all began as a small 2 room IVF unit at the Royal Liverpool Hospital

1989

## First IVF Unit baby

The first IVF unit baby was born

1990

The old women's and Royal Liverpool Hospital IVF services merged, starting the foundations of the Centre we have today!

1995

## First ICSI Baby

The first IVF unit ICSI baby was born

1997

## First Donor Embryo Baby

The first IVF unit Donor Embryo baby was born.

1998

We became The Hewitt Fertility Centre in honour of Jonathan Hewitt

2002

Freezing your eggs became possible!

2008

Time-lapse imaging technologies provided to all patients as a standard part of their treatment

2013

The Hewitt Fertility Centre in Knutsford was opened!

2015
